

ALL-WEATHER®

First Choice in Livestock Marking

All-Weather Paintstik®

REAL PAINT IN STICK FORM

For over 40 years LA-CO's All-Weather Paintstik markers have been America's first choice for livestock marking and for good reason. With the addition of the new color, Fluorescent Tangerine, we now offer a choice of 15 colors. Perfect for jobs like tail chalking for heat detection, sow breeding, animal health management, sorting, inoculating and much more. This non-toxic marker is safe for you and your animals. They go on wet or dry animals and leave a smooth mark that consistently resists fading and smearing. All-Weather Paintstik markers are the only brand that gives you "Made in America" quality that you come to expect and your animals deserve.
